TOYS GO GREEN...

... is currently considered a „mega trend“, not only in the toy industry.

Sustainable products that do not burden the planet are more than a trend for us! Since our founding in 2011, we have consistently focused on:

- high-quality, ecological natural materials (e.g. wood from sustainable forestry, cardboard, cork, non-toxic organic materials)
- recycled and compostable packaging
- regional and fair production „Made in Germany“

Thank you for walking this path with us!
